CONSUMPTION. Its Cure and Its Preventive,

BY J. H. SCHENCK, M. D. MANY a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

TABLISHED

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT, and availed themselves of his wonderful effica-

and availed themselves of his wonderful efficacious medicines, they would not have fallen.
Dr. Schenk has in his own case proved that
wherever sufficient vitality remains, that vitality, by his medicines and the directions for
their use, is quickened into healthful vigor.
In this statement there is nothing presumptuous. To the faith of the invalid is made no
representation that is not a thousand times
substantiated by living and visible works.
The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-as-

cines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Seawood Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the merbific action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms, of

its distressing symptoms, of CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillium Pel-tatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND." "LEAVE NO STING BEHIND."
The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It aronses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seawood Tonic, in conjunction with the

The Seawood Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenek's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the man-hood or the womanhood that was.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented on a correspond to a effected. Errosh air GIVEN UP AS LOST. the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their langs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

s the great point to gain.

To despair of cure after such evidence of its

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

'Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now effer to the public, and they made a perfect entry of the. I seemed to handcons when I now ther to the public, and they made a perfect care of the: It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of officusive yellow matter every morning for

As soon as that began to subside, my cough, As soon as that began to subside, my cough, fever, pain and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery, added the Doctor," then looking like a mere skeleton; my weight was only ninety, seven pounds; my present weight is two hundred and twenty-five [225] pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his prefessional visits to New York and Boston. He or

sional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth to see patients at their office, No. 15 North Sixth treef, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged \$5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other ac companiments than the ample instructions that companiments than the ample instructions that accompany them: First create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at oreste of good cheer. Good blood at once follows, the cough loosans, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenek's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation: while the Pulmonic standard preparation; while the Pulmonic Syrup as a curer of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, \$1.50 a bottle, or \$7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.
